My dear, sacred and beloved  
[pet] it is time  
To honor your life and the  
lives of your ancestors as  
you pass from this world  
into the next

I thank you for protecting  
my body, mind and soul in  
my moments of waking and  
dreaming

I thank you for your loving  
heart and kind spirit

I thank you for choosing to  
share your life with me

Thank you for showing me  
the signs that you are ready  
to transition from this world  
to the next

Thank you for giving me the  
trust and honor of being  
with you as you take your  
final breathey.

Now, I respectfully ask the  
guide dogs of souls, Anubis and  
Cerebus, to escort you safely  
into the afterlife

I ask you [pet], to take my love  
and gratitude with you

I wish you peace and love as  
you leap into your next journey

I will honor you in the skies  
through the brightest Dog Star,  
Sirius

I will be open to signs of your  
enduring spirit through my  
dreams and through the rivers,  
trees and animals of the earth  
that you loved

I will forever hold you in my  
heart and soul

Dear, beloved [pet] it is safe to  
release your beautiful fur soul  
now

Blessings on your journey
